

## **Physical Therapist**

This position is a vital member of our dynamic team, which works together to provide physical and manual therapy to our clients. You will provide one-on-one treatment to patients with acute and chronic musculoskeletal injuries and conditions.

### **Essential Job Functions**

- Consulting with patients to learn about their physical condition and symptoms
- Evaluate mobility, movement dysfunction, balance coordination, and physical function.
- Assessing and interpreting patient evaluations and test results
- Coordinate with the patient's primary physician and other medical professionals
- Developing personalized treatment plans using a variety of treatment techniques
- Maintaining patient records and keeping track of goals and progress
- Assess patient progress and make plan adjustments
- Advise and demonstrate exercises, movements, and home workouts
- Record and document patient care services in EHR program

### **Performance Requirements:**

- Demonstrate competency in all clinical knowledge and skills specific to patient care
- Monitor the patient's progression and make appropriate adjustments
- Record patient's treatment, progress, and subjective components in EHR
- Maintain a full patient caseload and remain flexible to accommodate patient's needs
- Collaborate with other team members to achieve well-rounded care
- Need to be an effective communicator and have strong interpersonal skills
- Compliant with state regulatory requirements
- Consulting and collaborating with other healthcare professionals

### **Education and/or Experience**

- Graduate of an accredited physical therapy program
- At least 1 year experience in an orthopedic physical therapy capacity
- Preferred experience in an outpatient setting with an emphasis on manual therapy
- Must possess a current state of Oregon Physical therapy license or provide application status
